CROSS-WORD PUZZLE NO. 51

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus, 1 under the column headed "horizontal" defines a word which will fill the white space up to the first black square to the right, and a number under the column headed "vertical" defines a word which will fill the white space up to the first black square below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and words of more than one syllable are indicated in the definitions.
